

Chair's Letter August 2024

You know I will never pull punches with our great Santa Fe County Republicans and I will always be frank with you. I'm going to talk about Nella, because she is taking friendly fire from Republicans and this is totally unacceptable. Nella Domenici has political DNA that any other candidate could never even hope to have. Her father Pete Domenici was not only a long serving US Senator but was a hair's breadth away from being Vice President of our great nation. NM Republicans are truly blessed to have a candidate of this caliber representing us in this critical election for US Senate.

I don't care if you agree with Nella, or any candidate for that matter, on 100% of policy positions, statements or strategy. That's never going to happen. We have a chance to flip a Senate seat from blue to red and that's all that matters. That is what will help President Trump the most when he is re-elected in November. Every single Democrat senator is an obstacle to our America First agenda, and must be removed, period. Especially a far-left radical like Martin Heinrich.

In political campaigns, it's important to employ smart strategy if you want to win. If candidates just want to demagog and grandstand, and don't employ smart strategy, that is detrimental to our cause and our movement. At the risk of repeating myself, Republicans in New Mexico can't win anything on our own. We are not in Alabama or in Texas. We need independent and Democrat votes, that's the reality.

Nella has a great team, and she knows our state extremely well. She is working hard to win, and we desperately need her to win, because our state and our country are in crisis. She is going to need every single Republican vote we can deliver this fall. I'm tired of the grumbling and I'm tired of the complaining. Realize where we are. This election is too important to dwell on petty differences of opinion. We must come together, and it has to be now.

Unity, Unity, Unity!
Fight, Fight, Fight!
Win, Win, Win!

In solidarity,

Robert Witsenhausen
