A source of information on judges is the Judicial Performance Evaluation Commission (JPEC) which evaluates judges using a survey system. It is important to note that the surveys are not mandatory, and the return rate can be low so the evaluations may not fully represent a judge's overall performance. In addition, the JPEC endorsed all judges for retention except four who are relatively new. Given the issues with our judicial system, we recommend using caution in relying on this information.

### **2024 NM Constitutional Amendments & Bond Issues**

It's important that voter's are educated about the 4 Bond Issues and 3 Constitutional Amendments (CA) being voted upon on Election Day. If these ballot measures pass (good or bad) they will become law. Voters are encouraged to look at the summaries and consequences of each one.
